

Name: Lappay, John A.

Year/Course: BSIT 4D – NS

### **ENTREPRENEURIAL MIND ASYNCHRONOUS ACTIVITY**

Business dominates the entire system of economy and society in this world. There are entrepreneurs who are not meant to be born as an *entrepreneur* but they are made by experience like those big three entrepreneurs named Socorro Ramos and José Ramos who are the founder of National Book Store, Henry Sy who is the founder of Shoe Mart Malls, and lastly the founder of Apple Inc. Steve Jobs. These individuals started from scratch however, with their brilliant ideas on their businesses which are depending on what people needs or demand, they succeed. As I observed, they manifest risk taking and have always guts in making decisions which are factors why their businesses become dominates the market without these traits, you will never grow and you'll never experienced on what is to be once a failure. I have learned that “A failure who is ruling today they didn't fail, they learned” and it was once said by the co-founder of Alibaba. It implies that there are certain portions of our lives that made us realize that it is not the end of the chapters of our journey, however, it is an indication that there is an upcoming success or progression that we may encounter soon or sooner. And the only thing that we need to remember, learn from the failures and mistakes that we have faced, and use these learnings as a tool or an instrument for the betterment of the future.
